

CMS Agency Report to PharmPAC
April – May 2011
Submitted by LCDR Matthew D. Febbo

The Office of Consumer Information and Insurance Oversight (OCIIO) is now the Center for Consumer Information and Insurance Oversight (CCIIO), a part of the Centers for Medicare & Medicaid Services (CMS). This change lets us improve operations, working better and smarter, by sharing resources and expertise.

<http://cciio.cms.gov>.

The Pre-Existing Condition Insurance Plan (PCIP) was created under the Affordable Care Act. The federally-administered PCIP is offered via the U.S. Department of Health and Human Services in 23 states and the District of Columbia. As of January 2011, PCIP enrollees in the federally-administered plan have a choice of three plan options – the Standard Plan, the Extended Plan, and the HSA Plan.
